

SKYRISE PRO

Agent Automation & Video

Always Know Whose Court The Ball Is On

Every Player. Every Handoff. Zero Dropped Balls — From First Move To Final Close.

WHAT THIS DOCUMENT IS

This is your FINAL complete Claude Code build prompt for the Skyrise Pro 3D Basketball Court Tracker. Follow every step in order tomorrow morning. Have all assets ready before you begin.

BEFORE YOU START — ASSET CHECKLIST

- Claude Code installed and running on your machine
- Skyrise Pro logo saved as: skyrise-logo.png in /assets folder
- Three court angle photos saved in /assets folder as angle1.jpg, angle2.jpg, angle3.jpg
- ChatGPT court hero image saved as court-hero.jpg in /assets folder
- Sky Bot dunk image saved as skybot-dunk.png in /assets folder (generate in ChatGPT)
- Clutch moment video placeholder saved as clutch-placeholder.mp4 in /assets folder
- Node.js installed — required for React and Three.js
- Project folder created and ready

SKY BOT DUNK IMAGE — CHATGPT GENERATION PROMPT

Use this exact prompt in ChatGPT image generator to create the Sky Bot dunk asset:

```
"A futuristic glowing cyan robot basketball player mid slam dunk,
fist pump celebration like Kobe Bryant, arm pulled tight, head down,
pure intensity, dark navy background, orange basketball,
cinematic arena lighting, dramatic sports photography style,
ultra detailed, 8k, wide shot showing full body"
```

STEP 1 — OPEN CLAUDE CODE

Open Claude Code in your terminal. Navigate to your project folder:

```
cd your-project-folder
claude
```

STEP 2 — PASTE THIS EXACT PROMPT INTO CLAUDE CODE

Copy everything below and paste as your first message. Do not change any wording.

TECH STACK

- Build a production-ready React component called SkyriseCourt.
- Use Three.js (r128) for all 3D rendering.
- Use Tailwind CSS for all UI panels outside the canvas.
- Use Rajdhani and Orbitron fonts via Google Fonts import.

BRAND IDENTITY

- Company name: Skyrise Pro
- Hero headline: Always Know Whose Court The Ball Is On
- Sub headline: Every Player. Every Handoff. Zero Dropped Balls — From First Move To Final Close.
- Primary color: Cyan #00CFFF
- Secondary color: Orange #FF6B00
- Background: Deep navy #0a0d1a
- No green anywhere — navy and cyan only
- Font: Rajdhani for headings, clean sans-serif for body

3D COURT — EXACT SPECIFICATIONS

- Full 3D basketball court rendered in Three.js.
- Court surface: bright blue #4A90D9 with darker blue border #2E5FA3.
- Visible hardwood grain lines across court surface.
- Raised court platform with visible thickness — like a stage.
- White court lines: center circle, 3pt arcs, paint boxes, center line.
- Two basketball hoops with backboards, poles, and nets on each end.
- Realistic drop shadow beneath entire court.
- Arena-style spotlights from above creating dramatic lighting.
- Subtle crowd silhouette in background for playoff atmosphere.

3 PRESET CAMERA ANGLES

- Angle 1 — Corner view: elevated front-left perspective.
- Angle 2 — Side view: elevated right-side perspective.
- Angle 3 — Overhead diagonal: straight overhead angled view.
- Toggle buttons on right side panel to switch angles.
- Smooth animated camera lerp transition between angles.

SKYRISE PRO LOGO — CENTER COURT

- Import logo from: ./assets/skyrise-logo.png
- Texture mapped onto court surface at center court.
- Logo replaces standard center circle.
- Perspective-correct at all camera angles.
- Logo glows subtly with cyan light.

ORANGE BASKETBALL

- Realistic orange basketball #FF6B00 with black seam lines.
- Continuous subtle bounce animation at current stage position.
- Smooth arc trajectory animation when advancing between stages.
- Soft orange glow shadow beneath ball on court surface.
- Playoff feel — ball reacts with energy at every stage.

10 PROJECT STAGES — COURT POSITIONS

- Stage 1: LOI Signed — Leasing Agent — far left corner
- Stage 2: Owner Review — Landlord — left wing
- Stage 3: Contractor Bid — General Contractor — left elbow
- Stage 4: Sub Bids — Subcontractors — center court left
- Stage 5: Pre-Con Meeting — Architect/Engineer — center court
- Stage 6: Permitting — City/Permit Office — center court right
- Stage 7: Construction — GC On Site — right elbow
- Stage 8: Final Inspection — Inspector — right wing
- Stage 9: Punch List — PM + Tenant — right corner
- Stage 10: Deal Closed — Tenant Move-In — through right basket
- Stage 11: RCD ISSUED — Rent Commencement Date — SLAM DUNK

PLAYER MARKERS ON COURT

- Each stage has a glowing position marker on court surface.
- Active stage: pulses with cyan glow #00CFFF.
- Completed stages: sky blue glow #87CEEB.
- Inactive stages: dimmed navy.
- Player role label floats above active marker in 3D space.
- Avatar icon or jersey silhouette at each position.
- Active player animates when ball arrives.

BALL STOLEN — DELAY MECHANIC

- When a player misses their stage deadline — ball stolen animation triggers.
- Opposing team player silhouette appears and strips the ball.
- Court flashes red briefly.
- Sky: Turnover! Ball stolen due to a delay. Get back on defense.
- Stage status updates to DELAYED in red on stage info card.
- Make.com webhook fires immediately to all players.

BALL STOLEN — FAILED PERMIT OR INSPECTION

- When permit is denied or inspection fails — special steal triggers.

- City of Orlando Inspector appears as opposing player on court.
- Ball stolen and scored on YOUR basket — opposing score animation.
- Net swishes on wrong basket. Court flashes red.
- Sky: Rejected! City of Orlando blocks the play. Back to the drawing board.
- Stage resets to the relevant failed step.
- Make.com webhook fires to all players immediately.

BALL RECOVERY AFTER STEAL

- Once issue is resolved — ball returned to your team.
- Recovery animation plays. Court returns to cyan lighting.
- Sky: They got the ball back. Corrections submitted. Back in the game.
- Stage status updates from DELAYED back to ACTIVE.
- Make.com fires recovery notification to all players.

MAKE.COM NOTIFICATIONS — ALL STEAL EVENTS

- Every steal event triggers Make.com automation immediately.
- Push notification sent to ALL players on the project.
- Sky calls responsible player via ElevenLabs voice.
- Email and SMS sent with reason for delay and next required action.
- Escalation timer starts automatically:
- Hour 1: Sky calls responsible player — stage overdue, action required.
- Hour 24: Sky notifies all players — delay holding up entire project.
- Hour 48: Direct notification fires to Owner/Landlord.

STAGE 10 — DEAL CLOSED — 3 POINTER

- Ball animates arc shot into right basket — 3 pointer.
- Net swish animation.
- Confetti explosion in cyan and navy brand colors.
- Screen flash effect.
- Large text: THREE POINTER — DEAL CLOSED displayed center screen.
- Sky: THREE POINTER. DEAL CLOSED. Tenant is moving in. Skyrise Pro delivers.
- Celebration lasts 4 seconds then settles.
- Make.com fires deal closed notification to all players.

STAGE 11 — RCD ISSUED — SLAM DUNK

- Rent Commencement Date issued and signed triggers Stage 11.
- Ball elevates above court — dramatic rise animation.
- Sky Bot imported from ./assets/skybot-dunk.png rises from commentator card.
- Sky Bot full slam dunk animation — throws it down hard on right basket.
- Rim shakes. Net explodes. Arena lights go full white flash.

- Sky Bot lands and delivers Kobe fist pump — arm pulled tight, head down.
- Sky: SLAM DUNK! Rent commencement is live. The money is in the building. Skyrise Pro wins.
- Clutch moment celebration triggers immediately after dunk — see next section.
- Make.com fires RCD notification to all players on the court.
- Dashboard updates to: ACTIVE LEASE — RENT PAYING.

CLUTCH MOMENT CELEBRATION — AFTER RCD

- Immediately after Sky Bot slam dunk — clutch moment clip auto-plays.
- Video plays full screen for 2-3 seconds.
- Import clip from: ./assets/clutch-placeholder.mp4
- // REPLACE WITH CUSTOM CINEMATIC CLUTCH MOMENT CLIP WHEN READY
- After clip ends — scoreboard overlay displays:
- Project Name | Tenant Name | RENT LIVE | Date
- All players on the court receive the clutch moment notification via Make.com.
- Celebration sequence ends — court returns to active lease state.

DOCUMENT PANEL PER STAGE

- Document icon appears in bottom-left UI panel at each active stage.
- Clicking opens a dark-themed modal with paperclip upload icon.
- Stage documents:
 1. LOI Template
 2. Lease Agreement
 3. Contractor Bid Form
 4. Subcontractor Bid Sheet
 5. Pre-Con Meeting Agenda
 6. Permit Application
 7. Construction Schedule
 8. Inspection Checklist
 9. Punch List Template
 10. Lease Commencement Letter
 11. Rent Commencement Agreement

SKY AI COMMENTATOR

- Floating commentator card at bottom center of screen.
- Default avatar: glowing cyan circle with SKY text and microphone icon.
- RCD avatar: Sky Bot dunk image from ./assets/skybot-dunk.png
- Use browser SpeechSynthesis API — ElevenLabs swapped in later via API key.
- Sky card pulses with cyan glow while speaking. Mute toggle button included.
- Normal stage commentary lines 1-10 as previously specified.
- Steal commentary:
 - Delay — Turnover! Ball stolen due to delay. Get back on defense.
 - Failed permit — Rejected! City of Orlando blocks the play.
 - Recovery — They got the ball back. Back in the game.
- Celebration commentary:
 - Stage 10 — THREE POINTER. DEAL CLOSED. Skyrise Pro delivers.
 - Stage 11 — SLAM DUNK! Rent commencement is live. The money is in the building.

PLAYOFF ATMOSPHERE

- Arena lighting with dramatic spotlights from above.
- Crowd silhouette visible in background — subtle, not distracting.
- Each stage advance triggers a brief light flash on court.
- Steal events trigger red court flash and crowd reaction.
- RCD slam dunk triggers full arena white flash and crowd peak roar.

BOTTOM UI CONTROLS

- ADVANCE STAGE button — cyan branded.
- TRIGGER DELAY button — red outlined.
- TRIGGER FAILED INSPECTION button — red outlined.
- ISSUE RCD button — cyan, activates Stage 11 slam dunk sequence.
- RESET button — outlined.
- Progress bar: gradient cyan to navy.
- Stage navigation dots — clickable.

STAGE INFO CARD — TOP LEFT

- Dark glass morphism card.
- Shows: Stage number, stage name, responsible player, status.
- Status options: Pending, Active, Complete, DELAYED (red), RENT LIVE (cyan).
- Subtle cyan border glow. Red border when DELAYED.

OVERALL UI STYLE

- Dark navy background #0a0d1a with subtle grid overlay.
 - Glass morphism cards with border glow.
 - Brand colors: Cyan #00CFFF and Orange #FF6B00 only — no green.
 - Mobile responsive — court scales to screen width.
 - 60fps smooth — dispose Three.js on unmount.
-

STEP 3 — ATTACH YOUR REFERENCE IMAGES

- skyrise-logo.png — Skyrise Pro logo for center court
- angle1.jpg — Corner view reference
- angle2.jpg — Side view reference
- angle3.jpg — Overhead diagonal reference
- court-hero.jpg — ChatGPT generated court with player labels
- skybot-dunk.png — Sky Bot dunk image for RCD celebration
- clutch-placeholder.mp4 — 2-3 second celebration clip placeholder

STEP 4 — IF CLAUDE CODE ASKS FOLLOW-UP QUESTIONS

QUESTION	YOUR ANSWER
Framework?	React with Three.js r128
Styling?	Tailwind CSS for UI, Three.js materials for court
Logo format?	PNG with transparent background
Voice API?	Browser SpeechSynthesis now. ElevenLabs later via API key
Camera control?	Preset angles only — no free drag rotate
Mobile?	Yes — fully responsive
Steal mechanic?	Delay = generic steal. Failed permit/inspection = City of Orlando Inspector steals and scores
RCD mechanic?	Stage 11 — Sky Bot slam dunk, Kobe fist pump, clutch clip plays after
Clutch clip?	Placeholder video from /assets — comment in code marking where real clip goes
Notifications?	Make.com webhook fires on every steal, recovery, deal close, and RCD
Green anywhere?	No. Navy and cyan only throughout entire build

STEP 5 — TEST BEFORE YOU LAUNCH

- Ball moves smoothly through all 11 stages
- Sky speaks at every stage advance
- Delay button triggers steal animation and red court flash
- Failed inspection triggers City of Orlando Inspector steal
- Make.com webhook fires on every steal event
- Sky escalation fires at Hour 1, Hour 24, Hour 48
- All 3 camera angles toggle correctly
- Logo visible and perspective-correct at center court
- Document modal opens at each active stage
- Stage 10 triggers 3 pointer celebration
- Stage 11 triggers Sky Bot slam dunk with Kobe fist pump
- Clutch moment placeholder clip plays after slam dunk
- Code comment visible: REPLACE WITH CUSTOM CLUTCH MOMENT CLIP WHEN READY
- Dashboard updates to ACTIVE LEASE — RENT PAYING after RCD
- Make.com fires RCD notification to all players
- Mobile view — court scales and all controls are tappable
- No green anywhere — navy and cyan only

You don't need a sales team. Sky is your sales team.

God is with you through every line of this build. Faith moves first.
